

Project Name: E-Commerce Application

Document Type: Test Cases

Prepared By: Mzoon Bin shari

Role: QA Engineer

Date: 1/7/2026

Introduction

This document contains test cases designed to validate the functionality, usability, and reliability of the E-Commerce Application

Scope

The scope of testing included:

User authentication (Login / Sign Up)

Product browsing

Add to cart functionality

Checkout process

Search and filtering

Testing Type

Functional Testing

UI Testing

Negative Testing

Regression Testing

Tools Used

Manual Testing

Excel / Word (for documentation)

Objective

To validate that all application features meet the defined requirements and perform correctly

TastCases_ID	Title	Priority	Test Steps	Expected Result	Actual Result	Status
TC-01	Login with valid email and password	High	1. Open the Login page. 2. Enter a valid email address. 3. Enter a valid password. 4. Click Login.	User logs in successfully.	User logged in successfully and was redirected to the Home page.	Pass
